EXECUTIVE SUMMARY

Final-year B.Tech student specialising in **Artificial Intelligence & Machine Learning** with hands-on experience building **GenAI applications, SQL-based systems, and web solutions**. Led large teams as **Web Development Lead Intern at GAOTek Inc.**, delivering production-ready features in remote environments. Strong in **Python, GenAI integration**, and product-oriented problem solving.

SKILLS

- **Programming Languages:** Python, HTML5, CSS3, JavaScript, SQL, PHP
- **AI/ML/Data:** Generative AI (GenAI), Google Gemini API, Langchain, Numpy, Matplotlib, Pandas, ETL
- **Computer Science:** Data Structures, Algorithms, Object-Oriented Programming (working knowledge)
- **Tools/Platforms:** Git, GitHub, VS Code, Jupyter Notebook, MySQL, Salesforce
- **Soft Skills:** Leadership, Communication, Problem Solving, Teamwork, Time Management

WORK EXPERIENCE

Web Development Lead Intern | GAOTek Inc

September 2024 - March 2025 (Remote)

- **Led a team of 50 interns** to ensure on-time delivery of web application projects.
- **Designed and delivered responsive** web features using **Python and modern web technologies**, improving **usability** and **project turnaround**.

IT Intern | Ordnance Factory Khamaria

July 2025 - August 2025 (Jabalpur)

- Developed an Online Food Ordering System project using PHP.
- Gained exposure to **cybersecurity principles**, server management, and IT infrastructure.

PROJECTS

AI-Powered Invoice Processing System (GenAI + Streamlit) [Multi-Language Invoice Extractor](#)

- **Tech Stack:** Python, Streamlit, Google Gemini API (Gemini 2.5 Flash), PIL
- **Developed a multi-modal AI web tool** using the **Google Gemini API** to solve the user problem of inefficient invoice data extraction by analyzing images and answering natural language queries.
- **Designed the user interface (UX)** with Streamlit, enabling flexible, multi-language document understanding—a key product feature by leveraging multi-modal AI for image handling.

Natural Language to SQL System (GenAI + Streamlit) [SQL-Query Assistant](#)

- **Tech Stack:** Python, Streamlit, Google Generative AI (Gemini 2.5 Flash), MySQL, Langchain
- **Developed an AI-powered product** to bridge the gap between non-technical users and data, translating **natural language questions** into executable MySQL queries.
- **Managed the technical delivery and backend logic** by integrating **Langchain** to orchestrate LLM and database interactions, demonstrating technical depth in product architecture and execution.

Dyuta - Deemed Startup Project (Pre-launch)

September 2025 - December 2025

Independent Product Development Project

- **Tech Stack:** Python, MySQL, GenAI (planning phase)
- Worked on ideation and pre-launch development of an opinion **trading platform**.
- Designed core **product flows** and contributed to system-level and data planning.
- Gained hands-on experience in startup-style **product thinking** and execution.

CERTIFICATES

- AWS Academy Graduate - Cloud Foundations (2025)
- Python Essentials - Cisco (2025)
- Database Design & Programming with SQL - Oracle (2024)
- Cybersecurity Essentials - Cisco (2024)
- Cloud Security Alliance (2024)

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning

Gyan Ganga Institute of Technology and Sciences, Jabalpur (M.P)

CGPA: 8.33/10.0 | Expected: June 2026
